Who is EAA?

The Educational Audiology Association (EAA) is an international professional organization for audiologists who specialize in the management of hearing and reduced hearing within the educational environment.

EAA was established in 1984, to advocate for educational audiologists and the students and their families they serve. American Academy of Audiology (AAA), American Speech-Language-Hearing Association (ASHA) and AG Bell recognize EAA as a related professional organization (RPO) which facilitates direct communication between EAA, AAA, ASHA and other RPOs as well as providing a forum for EAA issues. Through the efforts of the EAA Executive Board, committees and individual members, the association responds to issues and concerns which shape our profession.

EAA is open to audiologists, speech-language pathologists, teachers of the deaf and hard of hearing and other professionals from related fields who have an active interest in the mission of the association. Associate membership is available to college students with a special interest in this area.
